Non-Glare Polystyrene Sheets

Perfect for picture framing with a non-reflective surface. This lightweight material is pre-cut and a popular alternative to glass when framing artwork.

- Non-Glare polystyrene sheets reduce glare, reflections and UV damage.
- 0.05" thick PolyStyrene
- Protective film on both sides to help prevent scratching during shipment.
- Remove film before displaying art or photos
- The non-glare quality works best when directly in contact with artwork. Should not be used with spacers.
